

Instagram Feed for Magento 1 User Guide

Introduction

Instagram Feed is a powerful Magento Extension giving you better interaction with the target audience in your Magento Store. This extension functions via Graph API.

Instagram Feed has modes: grid or slider. These two options will look great in your online shop. Flexible settings allow you to adjust the appearance of Instagram posts to blend perfectly with your design.

Instagram Feed will make your integration with the world's most popular social platform easy showing photos by Username.

Magento Compatibility:

Community Edition: 1.8.x, 1.9.x

Enterprise Edition: 1.13.x, 1.14.x.1.x

If you experience any issues with the installation, please contact us.

Installation

To install NEKLO extension for Magento 1, you need to have FTP/SSH access details. **Attention!** It is vital to disable code compilation before installing the extension. If this setting is left enabled, the extension installation can make your site inaccessible.

To disable code compilation, go to your **Admin Panel > System > Tools > Compilation** and click **"Disable"**.

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

Compilation

To Install the Extension

1. Unpack a zip file you have downloaded.
2. Upload all files from the zip file to the root folder of your Magento 1 Installation.
3. In your Admin Panel, go to **System > Cache Management** and flush Magento Cache.
4. Turn code compilation back on in **System > Tools > Compilation** after the extension was successfully installed.
5. Log out from Magento and log in to reload ACL (Account Control Level) rules.

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	ENABLED			

Connect your Instagram Account with Facebook Page

The first thing you need to **set up a professional account on Instagram** and **add a Facebook page to your Instagram Business Account**.

Switching to Professional Account on Instagram:

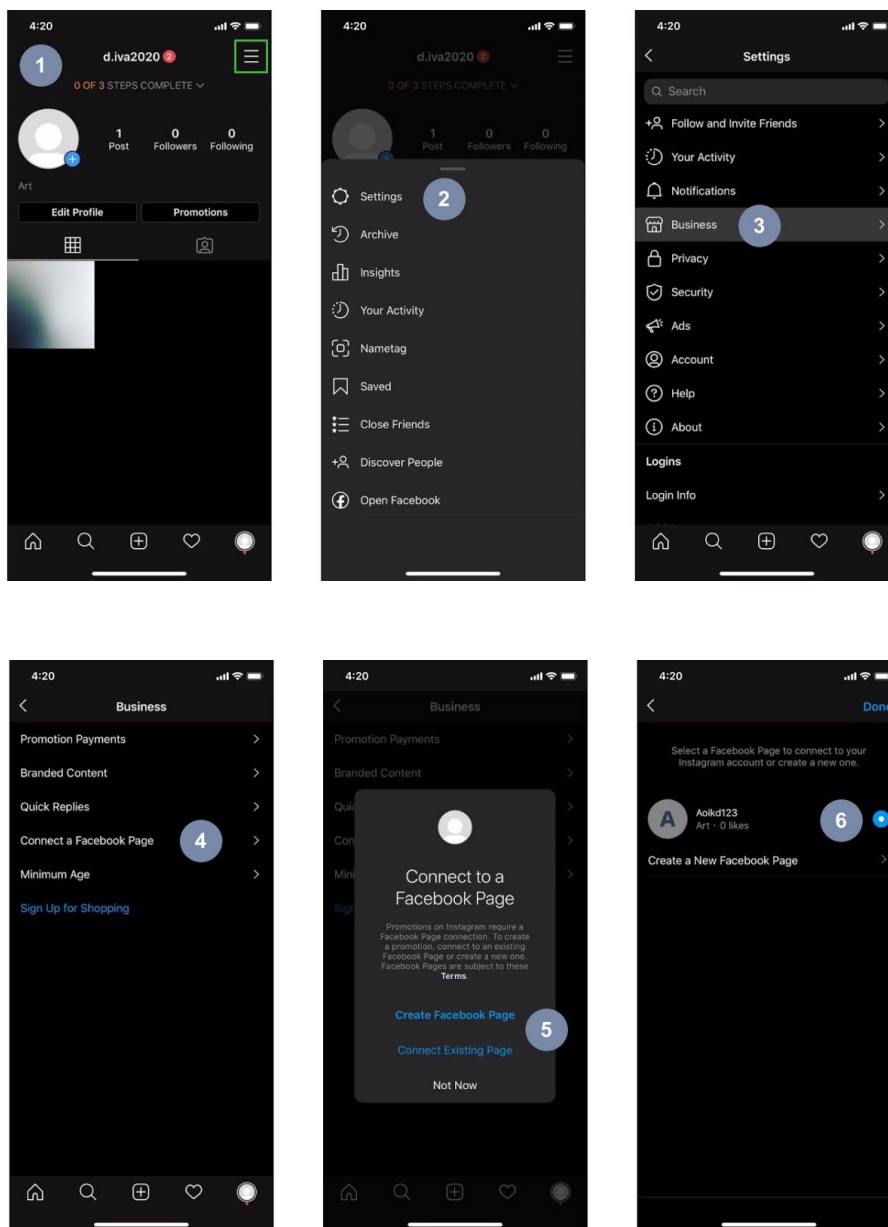

1. Go to your profile and tap  in the upper right corner.
2. Tap **“Settings”**.
3. Tap **“Account”**.
4. Tap **“Switch to Professional Account”**.
5. Tap **“Business”**.
6. Add details, like your business category and contact information.
7. Tap **“Done”**.

Adding a Facebook Page to your Instagram Business Account

To add or change the Facebook Page that is connected to Instagram account:

1. Go to your profile and tap  in the upper right corner.
2. Tap **“Settings”**.
3. Tap **“Business”**.
4. Tap **“Connect a Facebook Page”**.
5. Choose a Page from your pages that you would like to **connect to** or select **“Create Facebook Page”**.
6. Select a Facebook Page to connect to your Instagram Account and tap **“Done”**.

Note: Your Facebook Account must be verified by phone. To make sure:

- Open your facebook account on “**Settings**” page.
- Open “**Mobile**” tab.
- In case your phone is connected, you will see info like:

Your phones:

XXXXXXXXXXXXXX

Verified

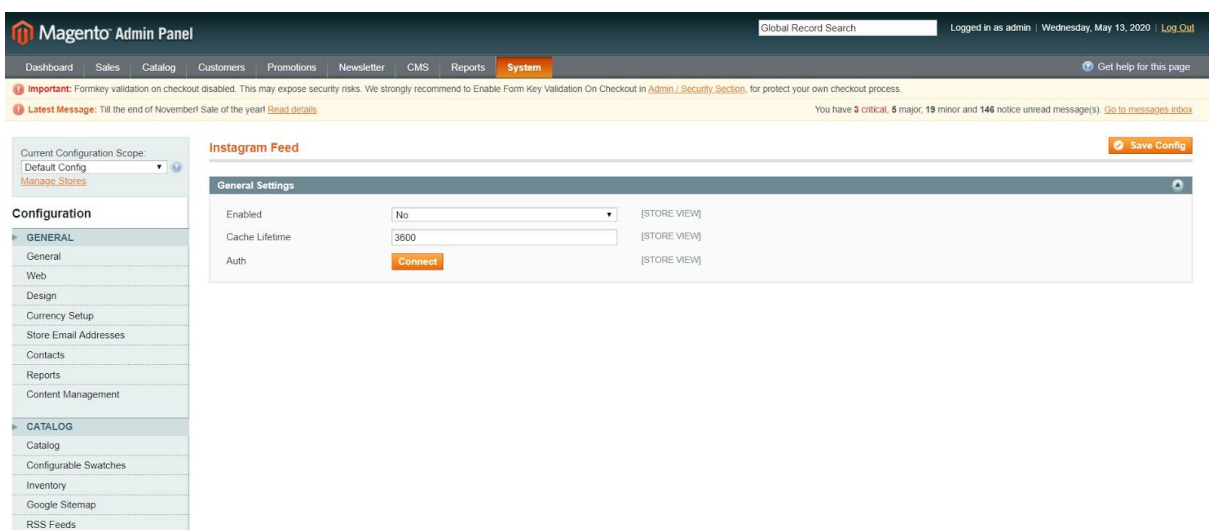

- In case your phone isn't connected, please follow Facebook Tips to connect your phone.

Extension General Settings

Go to **System > Configuration > Neklo > Instagram Feed > General Settings**

Here you can:

1. **Enable/Disable** the extension.
2. Set **Cache Lifetime** (for how long your posts will remain in cache).
3. Get Access Token.

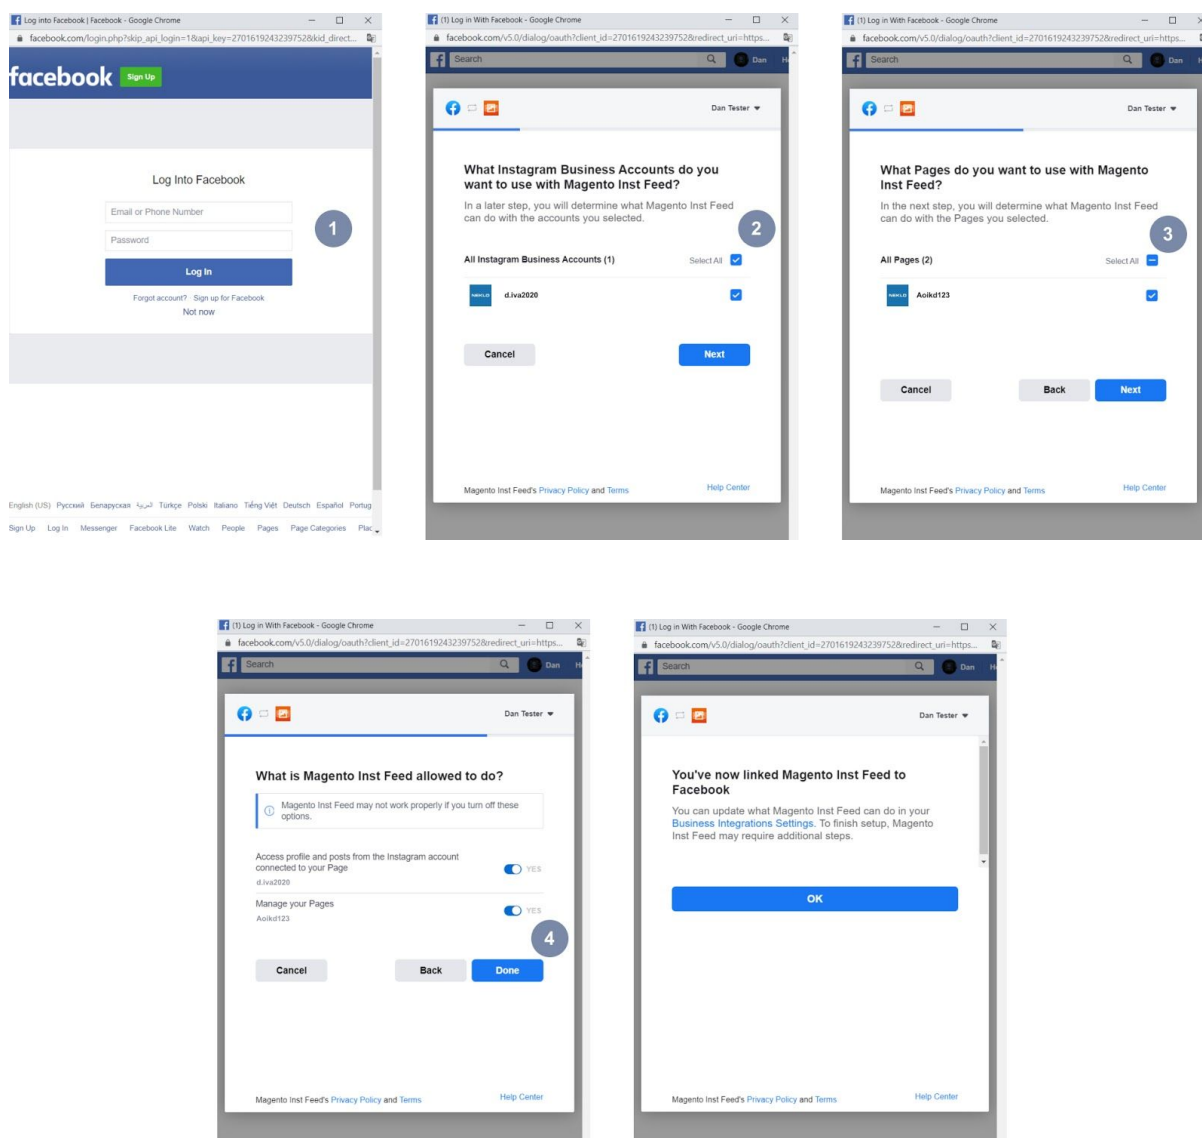

Get Access Token

Now you are ready to connect Magento to the Facebook Page in order to get the Access Token. To do so you need to:

1. Log in to Facebook and link your Facebook Account to Magento Inst Feed Facebook Application.
2. Select the Instagram Account which is already connected to your Facebook.
3. Select the Facebook Page that will be used to receive Instagram posts from the linked Instagram Account.
4. Press "Done" to finish the process of Token receiving.

Use the **"Save Config"** button to save your configuration.

Adding Your Widget

To create a widget go to **CMS > Widget** and use the button "Add new widget instance". You can also create a widget in **CMS > Pages** and **CMS > Static blocks**.

Then set the type "Instagram Feed" and choose the theme. You can also go to **CMS > Pages**, then choose any existing Page or press "Add New Page", click the tab "Content" and then "Insert Widget".
