

Low Stock Indicator User Guide

Introduction

Low Stock Indicator is the extension every merchant should have to quickly manage stock levels and control supplies. With Low Stock Indicator you will always be informed about the items that are close to be out-of-stock. Just choose the product and the email template you would like to receive and that all.

You will get an email exactly when the particular product reaches the set amount. Every day you will also receive a report with all the low stock items. Thus you will always be informed about the current situation with your products.

Installation

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run:

```
bin/magento module:enable Neklo_Core  
bin/magento module:enable Neklo_LowStockNotification  
bin/magento setup:upgrade  
bin/magento setup:static-content:deploy
```

Compatibility

Community Edition 2.1.x, 2.2.x

Enterprise Edition 2.1.x, 2.2.x

How to Configure Low Stock Indicator

To adjust Low Stock Indicator, complete the following stages:

1. Log into your Magento Admin Panel.
2. Go to **Stores -> Configuration -> Catalog -> Inventory -> Product Stock Options**
3. Set the quantity of product in the field **Notify for Quantity Below** - when the items amount lower than this number, the email will be sent.
4. Specify the email address for Low Stock Notifications in the field **Low Stock Notify Email**
