

# User Guide for Visual Product Sorting by Drag and Drop for Magento 1

## Introduction

Visual Product Sorting is an extension for your Magento store that makes editing product representation easy and visually seen. This widget displays products in your Magento admin panel in the way customers see them in your store and you can easily change the product's position using drag and drop.

This extension helps you regulate which products your customers will see and where. There are additional options that allow you to hide disabled and out-of-stock products so that there will be only relevant information in your store.

There is also Visual Product Sorting by Drag and Drop for Magento 2 [in our store](#).

## Installation

Magento Compatibility:

**Community Edition:** 1.7.x, 1.8.x, 1.9.x

**Enterprise Edition:** 1.12.x, 1.13.x, 1.14.x

To install NEKLO extension for Magento 1, you need to have FTP/SSH access details. Attention! It is vital to disable code compilation before installing the extension. If this setting is left enabled, the extension installation can make your site inaccessible.

To disable code compilation, go to your **admin panel > System > Tools > Compilation** and click "Disable"

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

## To Install the Extension:

1. Unpack a zip file you have downloaded.
2. Upload all files from the the zip file to the root folder of your Magento 1 installation.
3. In your admin panel, go to **System > Cache Management** and flush Magento cache.

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

Select All | Unselect All | Select Visible | Unselect Visible | 8 items selected Actions Refresh Submit

Cache Type	Description	Associated Tags	Status
<input checked="" type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	ENABLED
<input checked="" type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input checked="" type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input checked="" type="checkbox"/> Translations	Translation files.	TRANSLATE	ENABLED
<input checked="" type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input checked="" type="checkbox"/> EAV types and attributes	Entity types declaration cache.	EAV	ENABLED
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	ENABLED
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	ENABLED

4. Turn code compilation back on in System > Tools > Compilation after the extension was successfully installed.
5. Log out from Magento and login to reload ACL (account control level) rules.

## Extension Settings

General Extension Settings (**System > Configuration > Neklo > Product Position > General Settings**)

1. "Is Enabled" turns the extension on and off.

Yes

[STORE VIEW]

**NOTICE!** After you enable the extension you should go to each category your store has and re-save it. It should be done to sort the products with same position. Now you can start setting up the positions of your products.

Grid Settings (**System > Configuration > Neklo > Product Position > Grid Settings**)

1. "Display mode" regulates the way your products are represented: on the separate pages or on one with infinite scroll.
2. Set here the number of Products displayed on one page and the number of Columns your products will be segregated to.

**NOTICE!** Out of Stock products won't be displayed in Product Position tab if the option Display Out of Stock Products in System > Configuration > Catalog > Inventory is set up to NO.

## Product Position Tab

Go to **Catalog > Manage Categories > Specific Category > Product Position tab**. Please remember that you need to select any specific category to see the extension tab.

1. **Product Position Tab** has grid view with products which are assigned to your specific category and displayed according extension settings. Please remember the qty of products per page on front is managed at **System > Configuration > Catalog > Catalog section** and isn't connected with extension settings. Separate product item reflects product **Name**, **SKU**, **Prices**, and **Availability in Stock**.

- You can **pin a product with the Pin button** on the upper right corner of the image. After that the Pinned product won't be moved by any means. If it has been disabled, then its place will be taken by the first non-pinned product. Other pinned products will retain their positions. When the product will be enabled again, it will use its initial position and move the non-pinned products forward.

6. Products are possible to move using the **Drag & Drop** system. Just click on the product and hold. Then drag it in to any place you want and release the button.

After you have set all the options, don't forget to save the category. Right after that you can check the front end and see all the changes.

## Adding or importing a product

When you're adding or importing a new product, it will appear at the head of the first page after the Pinned products (if there's pinned product on the specific category page). Don't forget to run reindexes after product import.

Thank you for your installing and using the extension. More our great solutions for Magento 1 and Magento 2 you will find here: [store.neklo.com](http://store.neklo.com).
