

RECENTLY SOLD WIDGET FOR MAGENTO 2 USER GUIDE

Introduction

Recently Sold is an extension for Magento 2 that displays your products that enjoy popularity right now. This extension for Magento 2 shows products your customers choose to star, buy, or just put into the cart, which attracts attention and increases the upsell opportunities.

Our extension for Magento 2 helps you to offer ideas for the next purchase to your website visitors. Additionally, NEKLO's extension for Magento 2 allows you to place this Magento 2 custom widget anywhere in a storefront to attract an eye:

- product information collected automatically;
- storefront configurations for the tab contents;
- can be placed anywhere on the store;
- native Magento 2 widget configuration.

Magento Compatibility

Magento Open Source 2.4.x

Adobe Commerce 2.4.x

PHP 7.4, 8.1, 8.2

Installation

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run:

```
bin/magento module:enable Neklo_Core
```

```
bin/magento module:enable Neklo_RecentlySoldProductsWidget
```

```
bin/magento setup:upgrade
```

If Magento is in Production mode, the following commands should also be run:

```
bin/magento setup:di:compile
```

```
bin/magento setup:static-content:deploy
```

Installation via Composer from Neklo

To install the available packages you need to add our repository to your composer configuration with the following command:

```
composer config repositories.neklo composer https://composer.neklo.com
```

Next install the package with the command:

```
composer require neklo/module-recently-sold-products-widget
```

When prompted, enter your Authentication details.

Composer authentication keys can be found in your account under My Downloadable Products.

```
bin/magento setup:upgrade
```

If Magento is in Production mode, the following commands should also be run:

```
bin/magento setup:di:compile
```

```
bin/magento setup:static-content:deploy
```

Installation via Composer from Adobe Marketplace

Install the package with the command:

```
composer require neklo/module-recently-sold-products-widget
```

```
bin/magento setup:upgrade
```

If Magento is in Production mode, the following commands should also be run:

```
bin/magento setup:di:compile
```

```
bin/magento setup:static-content:deploy
```

Configuring the Extension

Once installed, the widget is ready to use and does not require additional configuration settings.

How to work with the Recently Sold Widget

To get started with the Recently Sold Widget, please log in to your Magento Admin Panel and follow these steps:

Go to **Content > Widgets > Add Widget**.

Settings

The screenshot shows the 'Widgets' management interface in the Magento Admin Panel. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, and REPORTS. The main area is titled 'Widgets' and contains a 'WIDGET' list on the left with 'Settings' selected, and a 'Settings' configuration panel on the right. The configuration panel has three numbered steps: 1. 'Type' dropdown set to '[NEKLO] The Recently Sold Widget'; 2. 'Design Theme' dropdown set to 'Magento Luma'; 3. A 'Continue' button. At the top right of the main area are search, notification (57), and user profile icons. Below the 'Widgets' title are 'Back' and 'Reset' buttons.

1. In Settings choose **The Recently Sold Widget** for **Type** dropdown.
2. Choose **Design Theme**.
3. Press the **Continue** button.

Settings on Storefront Properties Tab

The screenshot shows the 'Storefront Properties' configuration page for the '[NEKLO] The Recently Sold Widget'. The page is part of the 'Widgets' section in the Magento Admin Panel. The left sidebar contains navigation links for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The top right has buttons for Back, Reset, Save and Continue Edit, and Save.

Storefront Properties

Type: [NEKLO] The Recently Sold Widget

Design Package/Theme: Magento Luma

1 Widget Title: The Recently Sold Widget

2 Assign to Store Views: All Store Views, Main Website, Main Website Store, Default Store View, New Store, New Store View

Sort Order of widget instances in the same container

4 Layout Updates

Display on: Specified Page

Page: CMS Home Page, Container: Before Page Footer, Template: Default Template

Add Layout Update

Copyright © 2022 Magento Commerce Inc. All rights reserved. Magento ver. 2.4.3-p1
Privacy Policy | Report an Issue

1. **Widget Title** – the widget title, which will be displayed in Widgets grid in Admin Panel.
2. **Assign to Store Views** – assign store view(s) your widget will be displayed.
3. **Sort Order** – Sort Order of widget instances in the same container.
4. **Layout Updates** – define the page(s) and container. It's the place where the widget will be displayed on the Storefront. You can add several Layouts for one widget.

Settings on Widget Options Tab

1. **Widget Label** – the widget title, which will be displayed on the Storefront.
2. **Product Count** – define the quantity of products, which will be displayed for the widget.

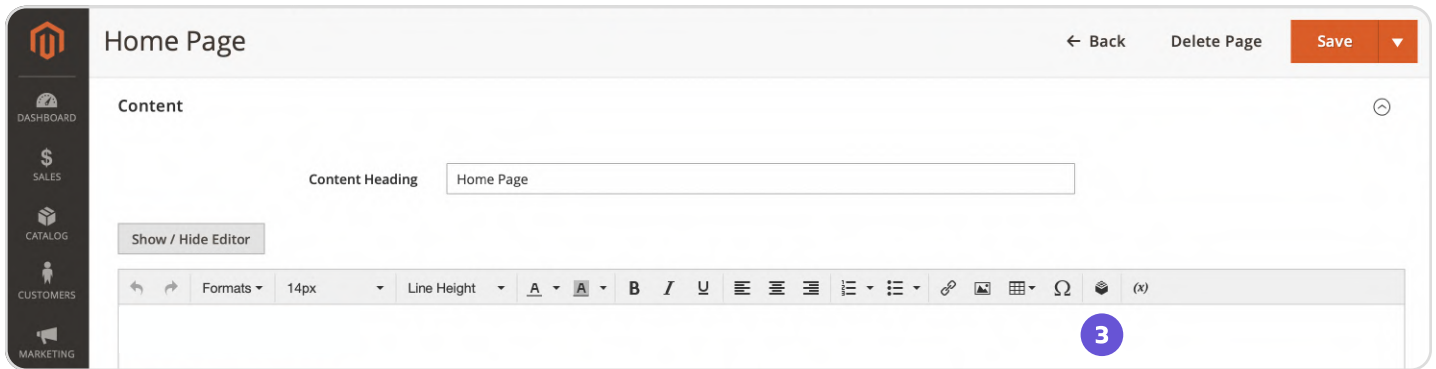

Important Note: displaying the slider for widget depends on the set product count.

3. Click **Save**.

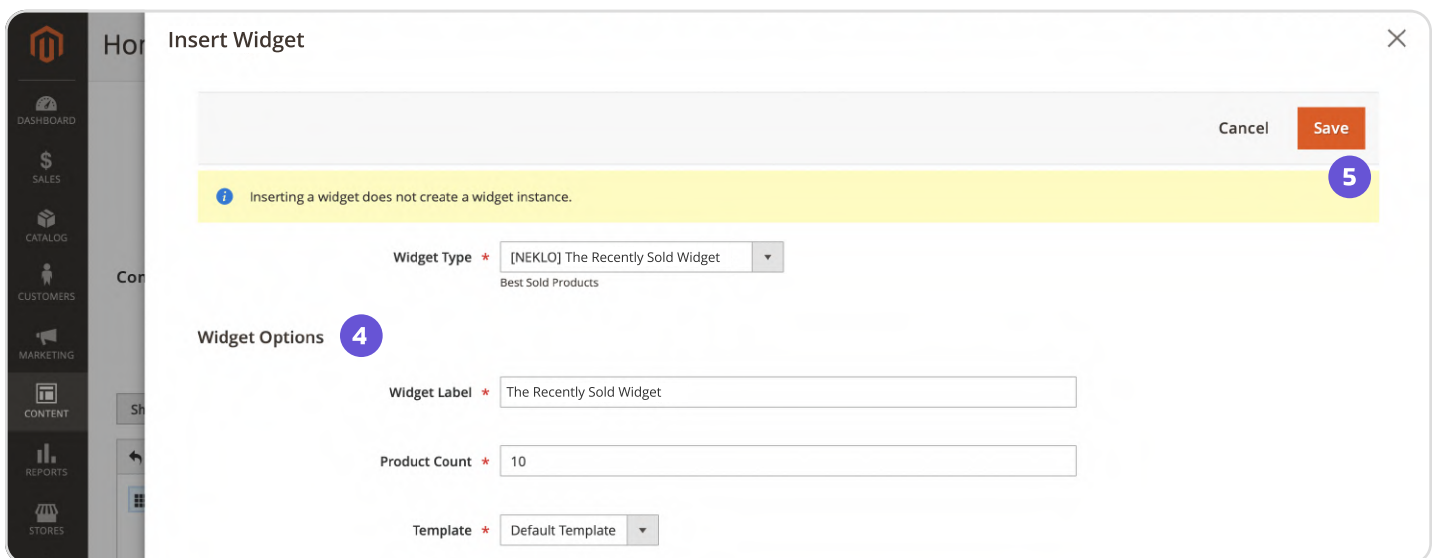

Additionally, you can add a widget on the specific page of your store.

| ID | Title | URL Key | Layout | Store View | Status | Created | Modified | Action |
|----|----------------|--|--------------------------|-----------------|---------|------------------------|-------------------------|----------------------------|
| 1 | 404 Not Found | no-route | 2 columns with right bar | All Store Views | Enabled | Apr 5, 2022 7:43:18 AM | Apr 5, 2022 7:43:18 AM | Select |
| 2 | Home Page | home | 1 column | All Store Views | Enabled | Apr 5, 2022 7:43:18 AM | Apr 25, 2022 9:33:19 AM | Select, Edit, Delete, View |
| 3 | Enable Cookies | enable-cookies | 1 column | All Store Views | Enabled | Apr 5, 2022 7:43:18 AM | Apr 5, 2022 7:43:18 AM | Select |
| 4 | Privacy Policy | privacy-policy-cookie-restriction-mode | 1 column | All Store Views | Enabled | Apr 5, 2022 7:43:18 AM | Apr 5, 2022 7:49:01 AM | Select |
| 5 | About us | about-us | 1 column | All Store Views | Enabled | Apr 5, 2022 7:49:01 AM | Apr 5, 2022 7:49:01 AM | Select |

1. Go to **Content > Pages > Choose a specific page (for instance, Home Page)**.
2. Apply **Edit** action.

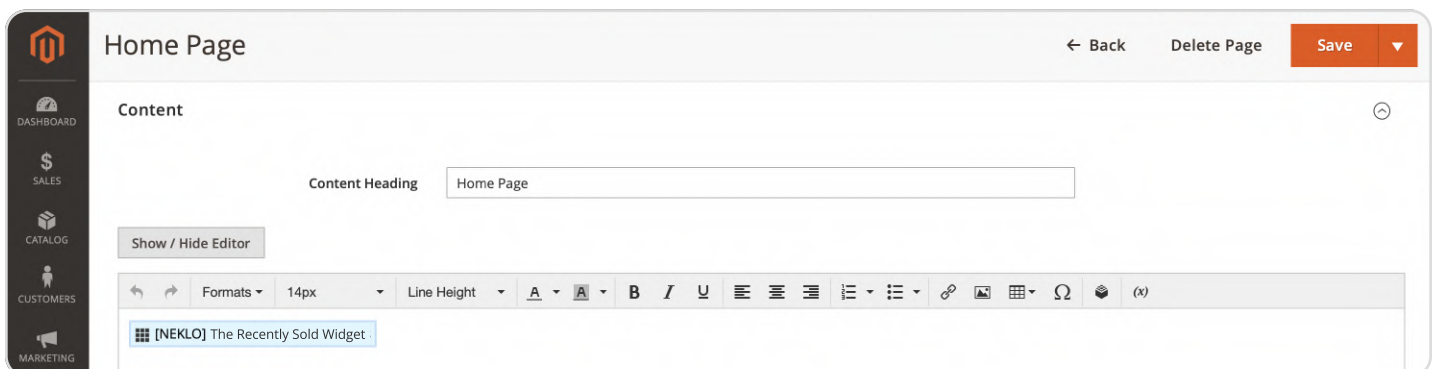

3. Add the Widget .

4. Define necessary options.

5. Click **Save**.

Result:

Cache Management Tab

Go to **System > Tools > Cache Management**.

Cache Management

Flush Cache Storage Flush Magento Cache

✓ The Magento cache storage has been flushed.
